

SAFETY LEADERSHIP

Deep Leadership... a new approach to safety

CORRIE PITZER
PRESIDENT
SAFEMAP

BRETT READ
CO-FACILITATOR

LEADERSHIP IN THE TREACHEROUS WATERS OF RISK HAS NEVER BEEN SO COMPLEX!

Deep safety leadership is focused on leadership in the high-risk environment.

You cannot promise a platoon of paratroopers that they will be “safe” when they are about to jump out of an airplane, into an attack. You cannot promise underground miners that they will be safe, or cave divers, deep-sea fishing crews or oilrig workers. Or construction workers, fire fighters and paramedics, factory workers, refinery or plant operators...wherever danger lurks, the leadership is different. You are leading them in danger, and into danger, and doing your best to be as *safe as possible*...

This is *deep safety leadership*.

This is the leadership of pioneers and explorers and we need that in the red zone workplace!

Leadership has just taken the next step...

COURSE DESIGNER AND LEAD FACILITATOR
